

GAS and AIR equipment

Available devices with
PED certificates and
ATEX certificates

1

HIGH SENSIBILITY REGULATORS
Material aluminium, brass, 316 L
Ports in body from 1/4" to 2"
Working pressure 5 mbar to 200 bar

2

COMPRESSED AIR UNITS 316 L
Material brass, stainless steel 316 L
Ports in body from 1/4" to 4" and flange
Working pressure 30/50 bar to 200 bar

5

MODULAR COMPRESSED AIR UNITS
Material aluminium
Ports in body from 1/8" to 1/4"

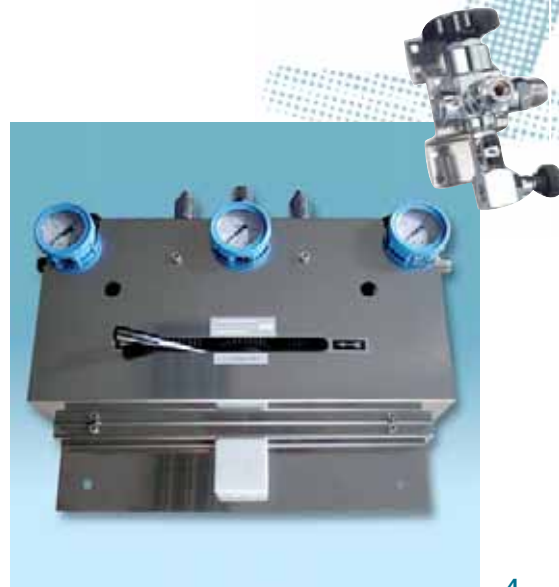

6

MODULAR COMPRESSED AIR UNITS
Material aluminium
Ports in body from 3/8" to 1/2"

3

HIGH PRESSURE REGULATORS
Material brass, stainless steel 316 L
Max flow 5000 Nm3/h
Working pressure max 220 bar

4

DECOMPRESSION UNITS FOR CORROSIVE GAS
Material stainless steel AISI 316 L

REGULATORS FOR NH₃ AMMONIA
Material aluminium, internal parts 316 L
Working pressure 30 bar to 200 bar

7

MODULAR COMPRESSED AIR UNITS
Material aluminium
Ports in body from 3/4" to 1"

8

MODULAR COMPRESSED AIR UNITS
Material aluminium, brass, bronze
Ports in body from 1-1/2" to 2"
Working pressure max 50 bar
